Elizabeth Zavitz, PhD

Department of Physiology
Monash University
Clayton, Victoria, 3800, Australia
Tel: +61 03 9905 2503
elizabeth.zavitz@monash.edu
Citizenship: Canadian

EDUCATION

2007-2013 **Doctor of Philosophy (PhD.), in Psychology**
McGill University, Montreal, Quebec, Canada

2003-2007 **Bachelor of Computing (BComp.), specialization in Cognitive Science**
Queen's University, Kingston, Ontario, Canada

PUBLISHED PAPERS

Zavitz, E. & Price, N.S.C. (*accepted, in press*). Weighting neurons by selectivity produces near optimal population codes. *Journal of Neurophysiology.*

Ghodrati, M., **Zavitz, E.**, Rosa, M.G.P. & Price, N.S.C. (2019). Contrast and luminance adaptation alter neuronal coding and perception of stimulus orientation. *Nature Communications, 10*(1): 941.

Zavitz, E. & Price, N.S.C. (2019). Understanding sensory information processing through simultaneous multi-area population recordings. *Frontiers in Neural Circuits, 12*(115).

Zavitz, E., Yu, H-H., Rosa, M.G.P., & Price, N.S.C. (2019) Correlated variability in the neurons with the strongest tuning improves direction coding. *Cerebral Cortex, 29*(2): 615-626.

Zavitz, E., Yu, H-H., Rowe, E.G., Rosa, M.G.P, & Price, N.S.C. (2016). Rapid Adaptation Induces Persistent Biases in Population Codes for Visual Motion, *Journal of Neuroscience, 36*(16): 4579-4590.

Featured in a journal club: Haak, K.V. & Mesik J. (2016). Adaptation, the Coding Catastrophe and Disaster Management in Natural Vision. *Journal of Neuroscience*, 36(36):9286-9288.

Zavitz, E. & Baker, C.L. (2014). Higher-order image structure enables boundary segmentation in the absence of luminance or contrast cues, *Journal of Vision, 14*(4): 1-14.

Zavitz, E. & Baker, C.L. (2013). Texture sparseness, but not local phase structure, impairs second-order segmentation, *Vision Research, 91*: 45-55.

Arsenault, E., Yoonessi, A. & Baker, C.. (2011). Higher order texture statistics impair contrast boundary segmentation. *Journal of Vision, 11*(10), 1-15.

Ouellette-Kuntz, H., Burge, P., Brown, H.K., **Arsenault, E.**. (2010). Public attitudes towards individuals with intellectual disabilities as measured by the concept of social distance. *Journal of Applied Research in Intellectual Disabilities, 23*(2): 132-142.

BOOK CHAPTERS

Zavitz, E., Price, N.S.C, & Rosa, M.G.P.. (2016). Primate Visual Cortex, in Neuroscience and Biobehavioral Psychology. Elsevier.

Price, N.S.C., **Zavitz, E.**, & Born, R.T. (2016). Representation of Movement, in Neuroscience and Biobehavioral Psychology. Elsevier

GRANTS AND AWARDS

2019	Senior Postdoctoral Fellowship Faculty of Medicine Nursing and Health Sciences	$35,000 AUD
2018	CIBF Special Initiative Project Grant	$12,500 AUD
2018	CIBF Early Career Researcher Travel Grant	$300 AUD
2018	FENS Forum Travel Award	€750 EUR
2018	BDI Travel Award	$2,000 AUD
2017	CIBF Early Career Researcher Travel Grant	$1,000 AUD
2016	CIBF David Van Essen Award for Highest-Achieving Early Career Researcher	
2016	CIBF Early Career Researcher Travel Grant	$2,000 AUD
2016	Monash University Platform Access Grant	$14,000 AUD
2015	Cold Spring Harbour Laboratories Tuition Waiver	$1,750 USD
2014	School of Biomedical Sciences Travel Grant	$1,500 AUD
2009	Provost's Graduate Recruitment Fellowship	$1,500 CAD
2003	Queen's University Entrance Scholarship	$1,000 CAD

RESEARCH EXPERIENCE

Monash University

Research Fellow	Population coding in visual cortex of nonhuman primates
2013-present	(Supervised by Dr. Nicholas Price)

McGill University

Doctoral Research	The role of higher-order statistics in texture segmentation
2007-2013	(Supervised by Prof. Curtis Baker)

Queen's University

Research Assistant 2006-2007	Southeastern Ontario Community-University Research Alliance in Intellectual Disabilities, Research on Epidemiology of ID (Supervised by Assoc. Prof. Helene Ouellette-Kuntz)
Honours Research 2007	Approaches in image classification problems (Supervised by Prof. Doug Mewhort)

TEACHING EXPERIENCE

Supervisor	
2019	(90%) Graduate student (15%) Graduate student
2018	(90%) Graduate student (15%) Graduate student (75%) Honours student Student was 3rd in cohort
2017	(15%) Graduate student
2016	(75%) Honours student Student received APA scholarship for PhD study
2014	(75%) PHY 3990 Final year project student Student topped the year in this course
Lecturer 2013	Computational Neuroscience (in general Neuroscience class)
Creator, Facilitator 2015-2017	PHY 3111 Practical: "Neuromyths" Evaluating and Communicating Science
Teaching Assistant 2009-2012	Winter 2009, Fall 2009, Fall 2010: PSYC 315 Computational Psychology Winter 2011: PSYC 212 Perception Winter 2012: PSYC 318 Behavioural Neuroscience

---

INVITED TALKS

December 2018	Symposium, "Sensory and motor processing in cortical circuits in vivo" Australasian Neuroscience Society Annual Meeting Brisbane, Australia

July 2018 *fully funded*	International Graduate Program in Neuroscience Symposium Series Ruhr Universität Bochum Bochum, Germany
July 2018	Meeting, Receptive Fields: Analysis, Models, and Applications Satellite meeting to Federation of European Neuroscience Societies Annual Meeting Berlin, Germany
December 2017	Symposium, "Computation in Area MT" Australasian Neuroscience Society Annual Meeting Sydney, Australia
December 2016 *fully funded*	Meeting, "Painting the Big Picture" in Integrative Brain Function Hobart, Australia
December 2014	McGill Vision Research Seminar Series McGill University Montreal, Canada
August 2014	Workshop, Computational Approaches in Biomedical Research Faculty of Biomedical and Psychological Sciences and the Monash Academy for Cross & Interdisciplinary Mathematical Applications Melbourne, Australia
June 2014	Workshop, Multi-modal approaches to understanding brain function Centre of Excellence for Integrative Brain Function Melbourne, Australia
January 2014	Departmental Seminar University of Western Australia, Department of Psychology Perth, Australia

PROFESSIONAL DEVELOPMENT

July 2015	Cold Spring Harbour Laboratories Course Vision: A Platform for Linking Circuits, Perception, and Behaviour
June 2015	Nature Masterclass Creating high-impact papers for top-tier journals
September 2012	Tomlinson Project in University-Level Science Education Graduate Teaching Workshop

PROFESSIONAL MEMBERSHIPS & COMMITTEES

2008-2011	Member, Vision Sciences Society
2014-Present	Member, Society for Neuroscience
2017	Member, Australasian Neuroscience Society
2015	Local Organizing Committee, Neuroinformatics 2015
2017	Symposium Chair, "A New World in Primate Vision Research: The Marmoset as a Model Animal" at Asia-Pacific Conference in Vision, Taiwan, 2017

AD-HOC REVIEWING

Federal Funding Agency	Australian Research Council (ARC)
Scientific Journals	Journal of Neurophysiology Journal of Neuroscience PLoS Computational Biology Cerebral Cortex Aging Clinical and Experimental Research PLoS One
Conference	CoSyNe (Computational and Systems Neuroscience)

PUBLIC OUTREACH

2018	From Noise to Meaning: How Visual Information Makes Sense A digital exhibition presented by Monash University Library
2013-2015	CSIRO Scientists in Schools, module on information and codes Caulfield South Primary School 4th grade level
2015	Women in Science Breakfast Alliance of Girls' Schools Victoria Year 11 and 12 Girls
2016	Computational work in neuroscience, lecture and software demo John Monash Science School 11th grade level

REFEREED CONFERENCE ABSTRACTS

Zavitz, E., Hagan, M. A., Oakley, B. H., Wong, Y. T., Price, N. S. C.. (2019). Stimulus statistics restructure correlated variability within and between visual areas. *Presented as a poster at CoSyNe, Lisbon.*

Rowley, D., Sadakane, O., Watakabe, A., Tani, T., Abe, H., Ichinohe, N., Mizukami H., **Zavitz, E.**, Yu, H.-H., Rosa, M., Yamamori, T.. (2019). Multi-scale calcium imaging of functional maps in the primate primary visual cortex. *Presented as a poster at CoSyNe, Lisbon.*

Zavitz, E., Hagan, M. A., Oakley, B. H., Wong, Y. T., Price, N. S. C.. (2018). Population codes in V1 and MT are optimised for the structure of natural images. *Presented as a poster at Federation of European Neuroscience Societies Forum, Berlin.*

Zavitz, E., Hagan, M. A., Oakley, B. H., Wong, Y. T., Price, N. S. C.. (2018). Population codes in V1 and MT are optimised for the structure of natural images. *Presented as a poster at AREADNE, Santorini.*

Zavitz, E., Hagan, M. A., Rosa, M. G. P., Yu, H-H., Lui, L. L., Price, N. S. C.. (2017). Population codes in V1 and MT are optimised for the structure of natural images. *Presented as a talk at Systems and Computational Neuroscience Down Under, Brisbane.*

Zavitz, E., Hagan, M. A., Rosa, M. G. P., Yu, H-H., Lui, L. L., Price, N. S. C.. (2017). Stimulus structure impacts population codes for motion within and between visual areas V1 and MT. *Presented as a talk at the Asia-Pacific Conference for Vision, Taiwan.*

Zavitz, E., Yu, H-H., Rosa, M. G. P., Price, N. S. C.. (2016). Task- and time-dependence of population codes for motion in marmoset MT. *Presented as a poster at Society for Neuroscience.*

Zavitz, E., Haghgooie, S., Yu, H.-H., Davies, A. J., Rosa, M. G. P., Price, N. S. C.. (2014). Population coding of motion direction in marmoset area MT is rapid and sustained. *Presented in a nanosymposium at Society for Neuroscience.*

Zavitz, E., Haghgooie, S., Yu, H.-H., Davies, A. J., Rosa, M. G. P., Price, N. S. C.. (2014). Adaptation decorrelates neuronal activity in visual cortex in a tuning-dependent manner. *Presented as a poster at Society for Neuroscience.*

Zavitz, E. & Baker, C.. (2012). Segmentation of boundaries defined by natural and naturalistic textures. *Presented at Sensory Coding and Natural Environment at IST, Austria.*

Arsenault, E. & Baker, C.. (2011). Segmentation mechanisms are sensitive to and can segment by higher-order statistics in naturalistic textures. *Journal of Vision*, 11(11).

Arsenault, E. & Baker, C.. (2010). The role of higher-order statistics in naturalistic texture

segmentation: Modelling psychophysical data. *Journal of Vision*, 10(7).

Arsenault, E., Yoonessi, A. & Baker, C.. (2009). Boundary segmentation of naturalistic textures: Roles of sparseness and local phase structure. *Journal of Vision,* 9(8).

Baker, C., Yoonessi, A., & **Arsenault, E.**. (2008). Texture segmentation in natural images: Contribution of higher-order image statistics to psychophysical performance. *Journal of Vision,* 8(6). Presented at VSS.
